MANAGING DIRECTOR MESSAGE

Welcome to HAAZ (M) Sdn. Bhd.

At HAAZ, we believe engineering is more than constructing buildings and infrastructure—it is about creating lasting value for communities, clients, and future generations.

Our philosophy, Excellence, Engineered., reflects the standards that define every project we undertake. Every design is carefully considered, every process is disciplined, and our commitment to quality, safety, innovation, and integrity drives every outcome.

Since our establishment, HAAZ has steadily evolved into an integrated engineering and construction company, delivering multidisciplinary solutions across civil engineering, building construction, mechanical and electrical systems, infrastructure, and specialised engineering services.

As industries continue to transform, we remain committed to embracing technology, sustainable practices, and collaborative partnerships to deliver smarter, safer, and more resilient projects.

Our ambition extends beyond today's achievements. We are building an organisation capable of delivering projects of national significance while creating long-term value for our stakeholders.

Together with our clients, consultants, partners, and dedicated employees, we look forward to engineering the future.

Ir. Muhammad Hafiz Abdullah
Managing Director
HAAZ (M) Sdn. Bhd.

ORGANIZATION CHART

OUR COMMITMENT

HAAZ is committed to delivering engineering excellence through innovative solutions, disciplined project execution, and long-term partnerships. We continually invest in our people, technology, and management systems to ensure every project is completed safely, efficiently, and to the highest standards of quality, creating sustainable value for our clients and stakeholders.

OUR SERVICES

HAAZ (M) Sdn. Bhd. delivers integrated engineering and asset solutions that support the complete lifecycle of infrastructure and building assets. Through our multidisciplinary expertise and commitment to operational excellence, we provide innovative, reliable, and sustainable solutions tailored to the diverse needs of the public and private sectors.

ENGINEERING & CONSTRUCTION

We provide comprehensive engineering and construction services for building, infrastructure, industrial, and utility projects under conventional, Design & Build, and Engineering, Procurement & Construction (EPC) delivery models. Our capabilities encompass civil and structural works, mechanical and electrical engineering, specialist systems installation, project management, testing and commissioning, and project delivery.

RENEWABLE ENERGY

HAAZ supports the transition towards sustainable energy through the development and implementation of renewable energy solutions. Our services include engineering, installation, commissioning, operation, and maintenance of solar photovoltaic (PV) systems, energy-efficient technologies, and other sustainable infrastructure designed to improve environmental performance and optimise energy consumption.

INFORMATION & COMMUNICATION TECHNOLOGY (ICT)

Our ICT division delivers intelligent digital infrastructure and technology solutions that enhance connectivity, operational efficiency, and business performance. Our expertise includes structured cabling systems, enterprise networking, telecommunications, data centre infrastructure, system integration, smart building technologies, cybersecurity, software and application development, and ongoing technical support.

INTEGRATED FACILITIES MANAGEMENT

We provide integrated facilities management services that maximise asset performance, reliability, and lifecycle value. Our services include operation and maintenance, mechanical and electrical maintenance, civil and building maintenance, asset management, preventive and corrective maintenance, cleaning services, technical support, and performance-based facilities management solutions, ensuring safe, efficient, and sustainable operations throughout the asset lifecycle.

INDUSTRIES WE SERVED

HAAZ provides engineering and asset solutions across a broad range of industries, supporting clients in both the public and private sectors.

Government & Public Infrastructure

Infrastructure development, public buildings, municipal facilities, and government agencies.

Utilities & Energy

Power generation and distribution, substations, renewable energy, water infrastructure, and utility assets.

Commercial & Mixed Development

Corporate offices, retail developments, mixed-use projects, hotels, and commercial facilities.

Industrial & Manufacturing

Factories, production facilities, warehouses, logistics centres, and industrial infrastructure.

Healthcare

Hospitals, medical centres, specialist healthcare facilities, and supporting infrastructure.

Education

Universities, schools, student accommodation, research facilities, and institutional campuses.

Transportation & Infrastructure

Roads, bridges, transport terminals, rail-related facilities, and supporting public infrastructure.

Oil & Gas Petrochemical

Industrial plants, process facilities, storage terminals, utility systems, and maintenance services.

Our integrated multidisciplinary approach enables us to deliver innovative, reliable, and sustainable engineering solutions that create long-term value for our clients while supporting the growth of Malaysia's built environment.
